

Bibby Rumbelow Snapshot Assessment for the improvement of knowledge exchange (KE), performance in HEBCIS, HEIF, and income generation

A Bibby Rumbelow Snapshot Assessment is a quick and low cost way to identify how to improve knowledge exchange and income generation which will in turn contribute to your Higher Education Business Community Interaction Survey return, and ultimately your institutional KE/HEIF funding.

Snapshot Assessments are completed in 15 working days and include three elements:

- 1. A benchmarked report assessing your HEBCI performance and your growth rates compared with peers**
- 2. Consideration of your internal capacity and capability including, strategies, policies, structures, capability and operations.**
- 3. A list of any priorities arising that we consider you need to focus on to achieve improvement**

Snapshot Assessments cost £850 *plus expenses and subject to VAT*

Bibby Rumbelow Snapshot Assessment for the improvement of knowledge exchange (KE), performance in HEBCIS, HEIF, and income generation

Bibby Rumbelow's specialists have been working with HEIs for 10 years and in that time we have helped clients increase their reported KE income by up to 100%; produced and delivered strategic and operational plans for commercialisation and income generation; reviewed consultancy and CPD strategies and policies; analysed structures and operational performance; and crucially we have worked with clients to develop and secure contracts and commercial projects

For the KE Snapshot Assessment, one of our team will

- meet with you to agree benchmarks and produce an analysis
- collect from you all, relevant documentation (where it is available)
- meet and discuss KE with key staff in the institution
- produce the snapshot assessment and discuss it with you
